NIXLE

Volunteer Recruitment

Emergency

Potential Plans

Animal Response Plan

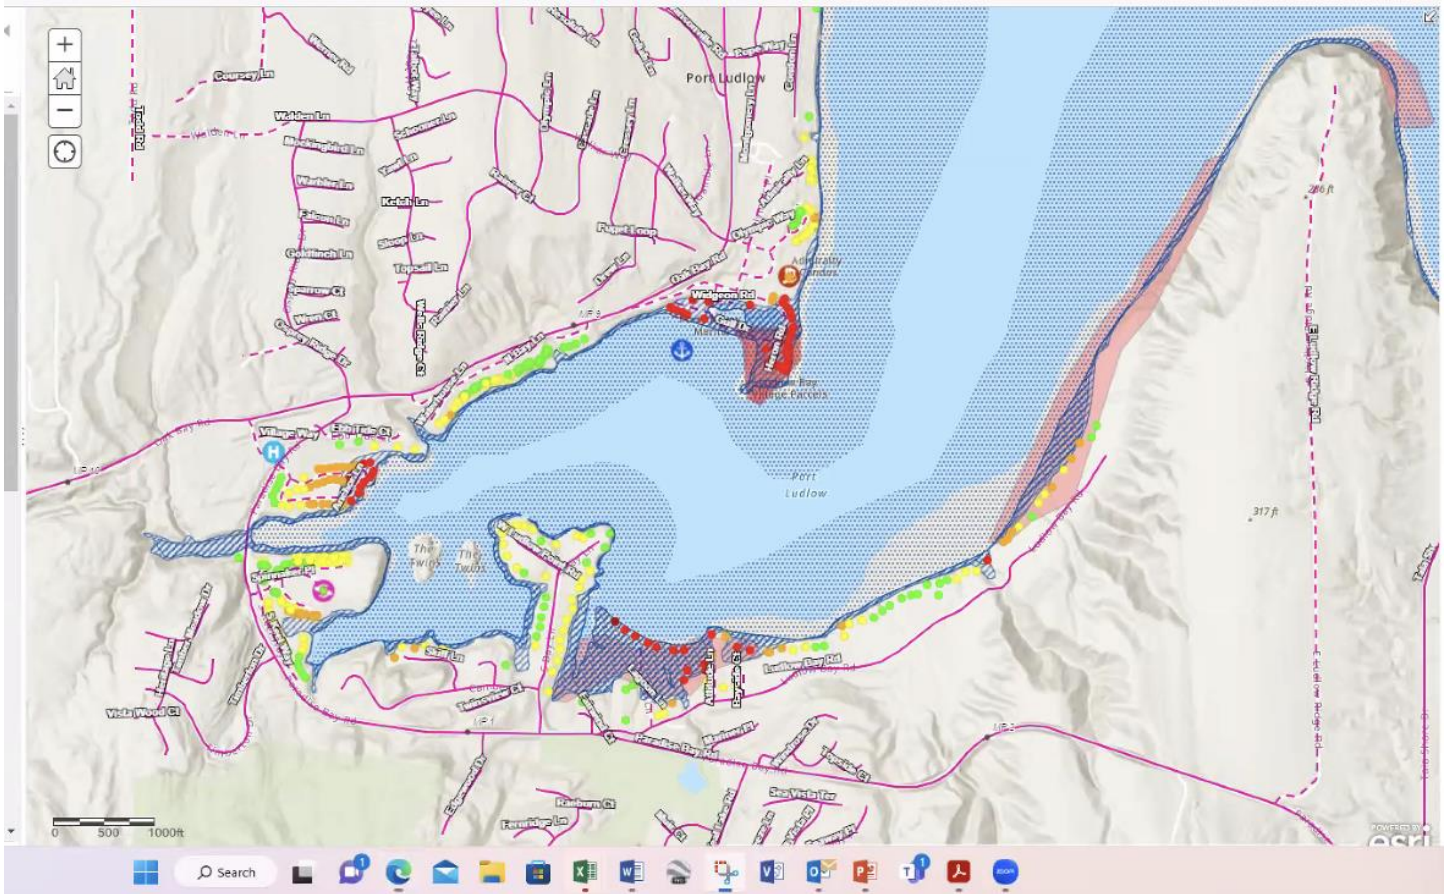

Fuel management Plan

Continuity of Government/Operations Plan and Training

New Tsunami warning sirens:

Siren is for people outside, working, and recreating. People in homes will use other methods to reach people. A lot of requests for a siren in Port Ludlow, but there may be issues.

GIS Map of Port Ludlow relation to Tsunami risk - Dave Codier

LMC EPC Topics – Ron & Allen

Port Ludlow Emergency Preparedness Committee event - emergency scenario

April 27 2:00-4:00

Hybrid meeting - Beach Club and on Zoom

Speakers on how to respond and what plans are in place

Communications Ramp Up Plan – Rick

Task List -

1. Update PLVC standard emergency frequency list
2. Update Comm Ctr Ops Manuals incl removal of NEP portions unnecessary for Comm Ctr operations.
3. Step by step instructions tailored for each Comm Ctr relative to antennas, radio setup and operation.

4. Make & install 12v cig lighter plugs for RE office & church for mobile power

5. Create implementation plans for PL EOC at church incl. radio platform, storage and auxiliary power.

6. Schedule annual location tests for Comm Centers with portables and mobile configurations for May and September.

7. Coordinate and test communications with DEM & Dave Codier using 145.150 and VECOM GMRS 462.500 with consideration of coordination with other county small communities adjacent to Port Ludlow.
(i.e. Quilcene, Paradise Bay, Mats Mats)

Block Captain Orientation - Linda (Bill)

Linda and Bill have updated BC Orientation manual

Have a few people interested in taking session (April 5-8 timeframe)

HUB Concept - Bill

Gathering information from Seattle and Portland

What is a HUB? A place to go in an emergency when other means of communication are not available

Idea: each HUB would have pre-printed material for people when they arrive.

Next Meeting, Monday, April 17, 1:00 pm
